EDIT: Alright, I've finally calmed down.

Basically, this DLC contains no story or what-so-ever. Just Edy. And a weapon. And a decal. (After clearing a mission with not much context.) I was hoping there is more to it, like in the previous VC games where Edy has somewhat interesting DLC missions.

While I do appreciate seeing Edy again... I WANT MORE EDY!!! WHERE IS THE STORY. WHERE IS MI ANIMUUU---!!!  
W-WH- \*incoherent screaming\*

I guess I'll forgive them for now for filling one whole page of the journal with a portrait of Edy.

But I'm watching you. You hear me. I'M WATCHING YOU.. It's good that they are giving this away instead of selling it. Not worth any money, but a good mission for free.. With this DLC you are getting 1 extra mission, 1 non canon character from VC 1 and 1 weapon (which is outclassed after third story mission). Its a fun little addition and it only add value to other DLCs since you get this one for free when you buy at least one DLC for the main game..
